From

Sri G.Simhadri, B.A.,
Project Executive Officer,
Mangalore.

To

The Director of Community Projects and Ex-Officio Secretary to Govt.,
Fort St.George, Madras 9.

Sir,

Sub: Community Projects - South Kanara - Education Construction of additional accommodation to Board Hr. Ele. School, Mudushedde - Educational Policy - Report - Submitted.

Ref: Govt.Memo.No. 1755 Pub.(C.P.Audit)/53-2 D/ 7-5-53

*****

In the Government Memorandum cited, instructions have been issued that the grant-in-aid towards improvement of educational institutions is limited to Rs. 1,500/- per school. In the Summary Record of conclusions communicated with Government Memorandum No: 11690-A Pub.(C.P.)-I/53-19 dated 20-4-1953, it is stated that the Government's share of the cost of land and buildings for Primary schools should be limited to Rs. 1,500/- per school. It is presumed that the instruction to limit the expenditure to Rs. 1,500/- in the present case is based on the conclusion arrived at by the Government referred to above. If this is so, I submit that the matter may kindly be reconsidered under the following circumstances. The limit of Rs. 1,500/- per school seems to relate only to primary schools to be started by the Community Project. The present proposals do not relate to opening of a primary school. It relates to providing additional accommodation to an existing Higher Elementary School. The summary record of conclusions referred to above does not contain any instructions regarding such cases and there appears to be nothing in it to suggest that the expenditure should be limited to Rs. 1,500/- in such cases also. I submit that the present case is different. The school in question is a Board Elementary School which was already upgraded into a Higher Elementary School by the District Board, and where the VI standard has already been started. So this cannot be treated as a primary school and has to be reckoned as a Higher Elementary School.

2. In the Budget estimate submitted with this office Ref.A2/52 dated 7-2-1953 provision was made for additional accommodation to 30 Primary schools and 15 Higher Elementary schools at an average of Rs. 3,500/- each. In the sanctioned budget, provision has been made for improvement of existing accommodation for 27 schools. It is therefore presumed that the proposal has been approved by Government and that provision exists for providing additional accommodation to schools both elementary and Higher Elementary.

3. In the sanctioned budget, it has been stated against Community Halls that adequate provision was made under schools. The sanctioned allotment is 1.40 lakhs under education- under three different heads. I request to be informed as to the amount set apart under each category in cases it does not represent the estimate at Rs. 3,500/- for improvement of each school as made by me ~~is not correct~~.

4. I also request the favour of instructions on the following points:

1) Whether the limit of Rs. 1,500/- is applicable to new primary schools only or also cases where additional accommodation is provided for existing primary schools.

2) If it is not applicable to the latter, what is the maximum amount that can be spent on providing additional accommodation to primary schools.

3) What is the maximum amount that can be spent on providing additional accommodation to existing Higher Elementary Schools.

PROJECT EXECUTIVE OFFICER. 13.1.

(for verification & further steps)

On my way to Bajpe on 25-5-1953, I inspected the Mudusheddi school building, correspondence relating to which will be found in No.1755 Pub. (C.P.) Audit/53. The school has a main building and the proposal is to construct additions to it to ~~accommodate~~ provide additional space for the school children. ~~and unfinished portion~~ Construction upto 1/3rd of the contemplated extension has already been put up by the beneficiaries and the two-thirds portion remains to be executed. It is in ~~this~~ connection with this, the P.E.O. has submitted proposals to Govt. The construction is being put up with laterite walls of 9" thickness with pillars at about 6 feet and Mangalore tile roofs. If the 2 rooms are constructed as it is proposed, they will accommodate nearly 70 to 80 children. It is ascertained from the Headmaster of the school that coir making is taught to the pupils as a craft and it is proposed to impart instructions in tailoring also as an adjunct. The education to be imparted in the institution is therefore craft ~~basis~~) and as such it is eligible for contribution from C.P. Funds. I have submitted the files with my ~~recommendation~~ note prior to my visit, to D.S. proposing therein that 1,500 rupees may be paid as our contribution within the limits agreed upon for other areas. I understand from the A.E. who accompanied me that the 2 rooms to be put up will cost more than Rs.6,000/- and even with the use of local materials, the construction cannot be less than Rs.5,000/- to 6,000/-. I found during inspection small children of 4 years coming some 2 to 3 miles ~~of~~ after crossing streams to attend the school. Such being the case, the institution seems to deserve extra consideration. During the monsoon, I understand the boys and girls will suffer a lot unless pucca accommodation is ~~not~~ provided.

D.S. may kindly consider whether we can raise our contribution upto Rs.2,500/- in this case.

The school belongs to the dt. board.

26/5/53.

Please examine and submit with the file.

(CN No. 11365.53)

Subject:- Ps. South Kanara Dt. Erection Construction of additional accommodation Dishict Board Higher Elementary School at Kudu Shedde Estimates - Sanction

Ref:- From the P. Eo. Mangalore RC 266/53812.5.53

The P. Eo. Mangalore submitted proposals for financing the construction of additional accommodation for the Board Higher Elementary School at Kudu Shedde in Block No. I to the extent of Rs 3200/-. Though the School Committee has the primary which it should be a local body/ School as stipulated in the record of conclusions arrived by the Govt., Yet the papers were however returned to the P. Eo. to review his proposals if the School Committee has other perceptions regarding basic type of education and the possibility of grant which the Govt can sanction for land and buildings in such cases.

The A.D.I.S. has recently inspected the building during his visit to Mangalore. The School is said to be craft minded. Coir making is now taught and tailoring is proposed to be added. As regards the grants in aid he recommends that the contribution can be raised upto Rs 2500. The budget estimate brought by the D.I. from Delhi provides for improvements to existing 80 School buildings at Rs 1.60 lakh The average cost of a building works out to Rs 2000/. As a special case a sum

of Rs 2500 may be sanctioned for orders
